

California OES Weather Threat Briefing

Friday, June 5, 2020
9:00 AM PDT

- **Day 1 (Friday):** Gusty winds will begin to pick up across much of the state. Isolated showers and thunderstorms are possible today, especially in the mountains.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

06/05/20 - 06/11/20

Friday-Sunday

- Cooler temperatures starting today will significantly reduce heat impacts
- Gusty winds will increase today and through the weekend across much of the state, but especially in the deserts of Southern Region
- An increased chance of showers and thunderstorms is expected today and through the weekend
 - Gusty winds, small hail, and brief heavy rain are possible with some thunderstorms
 - Snow levels will lower Saturday into Sunday, with a couple inches of snow accumulation possible on the higher passes of the Coastal and Inland Regions

Monday-Thursday

- Drier weather is expected for the beginning of the week, with a slow warming trend
 - Low to moderate heat impacts could return to the state by Thursday
